

## Science Vocabulary Words

### Chapter 10

Biomass  
Fossil fuel  
Geothermal  
Hydroelectric  
Nonrenewable resource  
Renewable resource  
Resource  
Solar energy

### Chapter 7

Salinity  
Aquifer  
Water table  
Reservoir  
Evaporation  
Condensation  
Precipitation  
Sublimation  
Water cycle  
Sleet

### Chapter 11

Element  
Atom

### Chapter 12

Polymer  
Reactant  
Chemical change  
Product  
Physical change  
Combustion  
Chemical equation

### Chapter 13

Equilibrium  
Force  
Machine  
Inertia  
Work  
Acceleration  
Velocity  
Power

### Chapter 14

Energy  
Kinetic energy  
Potential energy  
Electromagnetic energy

Intersected  
Isosceles  
Label  
Line  
Linear function  
Obtuse  
Ordered pairs  
Parallel  
Pentagon  
Percent  
Perimeter  
Perimeter  
Plot  
Prism  
Proportionally

Solution  
Statement  
Stem and leaf plot  
Surface area  
Theoretical probability  
Transversals  
Tripled  
Units  
Value  
Vertices  
Volume  
x-intercept  
y-intercept

Coordinates  
Cylinder  
Data  
Decimal  
Degree  
Denominator  
Diagonal  
Diameter  
Dimension  
Distance  
Domain  
Enlarge  
Equation  
Equilateral  
Equivalent
