

Vertebrate and Invertebrate Animals

All animals are classified into two major groups - vertebrates and invertebrates. Vertebrates include animals that have a backbone or spine. Invertebrates include animals that do not have a backbone or spine. Classify the animals below into vertebrates/invertebrates groups then label each group. Mark by the name of the animal and classify by the groups of the animal. In order to proceed and give it to the sheet. Try to answer from the sheet how to help identify the animals.

Worksheet
