

Question: Read the passage about the Industrial Revolution. To complete each blank, write the passage that best explains or explains the Industrial Revolution. Write answers on a separate sheet of paper.

The Industrial Revolution

The Industrial Revolution began in England during the late 1700s and continued through the 19th century. It was a time of massive economic change, including technology.

During the Industrial Revolution, the first machines in factories were powered by steam. This was replaced by other means, such as electricity. The use of these machines led to the development of new products.
