

NAME: \_\_\_\_\_ DATE: \_\_\_\_\_ 1º ESO  
(Bilingual English-Spanish)

**UNIT: 5.- THE ATMOSPHERE**

**THE ATMOSPHERE AND ITS COMPOSITION.**

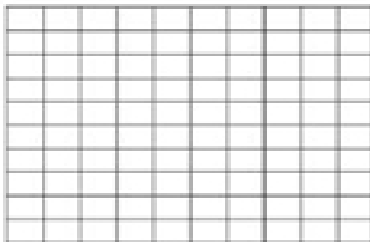

- **ATMOSPHERE:** It is a thin layer of gases that surrounds the Earth.
- **AIR:** It is a mixture of gases that forms the atmosphere. It is composed of nitrogen (78%), oxygen (21%), carbon dioxide (0.03%) and very small amounts of other gases (helium, argon, neon, ozone, etc.).
- In the atmosphere there is also: powder, bacteria, pollen, etc.

1- Copy this information:

2. - Translate the following words:

Atmosphere:	nitrogen:
Air:	carbon dioxide:
Oxygen:	helium:
Ozone :	argon:

3. - This table represent the atmosphere, colour the part corresponding to oxygen blue, colour the part corresponding to nitrogen yellow and colour the part corresponding to carbon dioxide red.

4.- What is the atmosphere?

5.- What is the composition of the air?
