Math Squares Worksheet 2

Complete each math square to find the missing number(s)

6	3
10	
7	4
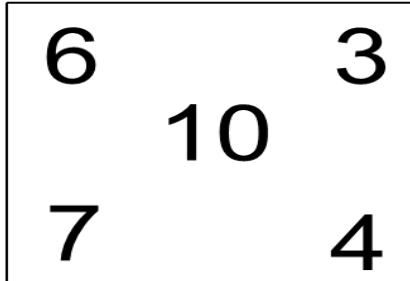

Rules:
1. You play diagonally.
2. Both corner numbers diagonally adds to the center number.
3. The center number minus a corner number equals to the opposite number (diagonally).
4. Look at the example to the left.
5. Write down all the math facts (possibilities).

$6 + 4 = 10$
$7 + 3 = 10$
$10 - 6 = 4$
$10 - 4 = 6$
$10 - 7 = 3$
$10 - 3 = 7$
