

Name: \_\_\_\_\_

## Population

**Directions:** Determine the population of your school. (Conduct a census of the people who learn, teach, and work in your school. Work in a team assigning different areas of the school. After you have collected your data, present it to the rest of the class and see if their data agrees. You can add categories, like age, male teachers, female teachers, if you wish.

My school: \_\_\_\_\_

Our team members:	Our areas for census:
_____	_____
_____	_____
