

Science Vocabulary Words

Chapter 10

Biomass
Fossil fuel
Geothermal
Hydroelectric
Nonrenewable resource
Renewable resource
Resource
Solar energy

Chapter 7

Salinity
Aquifer
Water table
Reservoir
Evaporation
Condensation
Precipitation
Sublimation
Water cycle
Sleet

Chapter 11

Element
Atom
Proton
Neutron
Electron
Compound
Saturated
Concentrated
Dilute

Chapter 12

Polymer
Reactant
Chemical change
Product
Physical change
Combustion
Chemical equation

Chapter 13

Equilibrium
Force
Machine
Inertia
Work
Acceleration
Velocity
Power

Chapter 14

Energy
Kinetic energy
Potential energy
Electromagnetic energy
Thermal energy
Conduction
Convection
Radiation
