

Spring Break

Weeks are placed horizontally, vertically, and diagonally, both forward and backward.

Weeks are placed horizontally, vertically, and diagonally, both forward and backward. This is a complex grid where each cell contains a week number. The grid is 10 columns wide and 10 rows high. The numbers are arranged in a pattern that repeats every 7 days, with the first row starting with 1 and the last row starting with 28. The numbers are placed in a way that they are read horizontally, vertically, and diagonally, both forward and backward.
