REVIEW SHEET 19

Gross Anatomy of the Brain and Cranial Nerves

The Human Brain

1. Match the structure to the diagram of the human brain (right hand column) by appropriate letter code (left column)

..... 1. cerebellum	_____	_____
..... 2. cerebral cortex	_____	_____
..... 3. corpus callosum	_____	_____
..... 4. diencephalon	_____	_____
..... 5. pineal gland	_____	_____
..... 6. pons	_____	_____
..... 7. medulla oblongata	_____	_____
..... 8. midbrain	_____	_____
..... 9. occipital lobe	_____	_____
..... 10. cerebellum	_____	_____

2. In which of the cerebral lobes would the following structures most be found?

olfactory bulb _____	olfactory bulb _____
primary somatosensory _____	motor cortex _____
primary visual cortex _____	Broca's area _____

3. Which of the following structures are not part of the brain stem? Tick the appropriate response in brackets: () = not part of brain stem, (X) = part of brain stem

4. Complete the following statements by writing the proper word or phrase in the corresponding blanks in the gaps.

The _____ is a subcortical structure of the brain stem. It consists of the _____ and _____ and is located in the _____ of the brain. It is composed of _____, which is the _____ of the brain stem. The _____ is the _____ part of the brain stem and is located in the _____ of the brain. It is composed of _____, which is the _____ part of the brain stem. The _____ is the _____ part of the brain stem and is located in the _____ of the brain. It is composed of _____, which is the _____ part of the brain stem.

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
