

Rewriting Formulas (A)

Solve for c in terms of the other variables.

1. $a = c + (-10)$

6. $u = c + 5$

11. $c - x = b$

2. $v - c = 10$

7. $z - c = x$

12. $c - (-4) = z$

3. $c - a = b$

8. $u = c - a$

13. $c - z = a$

4. $y = c + x$

9. $b = c - y$

14. $c + u = z$

5. $y = c - 6$

10. $c - x = z$

15. $c + b = x$
