

**What should study at university?**

18. I don't really think, but for the most part, I have decided to study  
*journalism*
19. I can be difficult to choose subject to study in college because there are many choices, but I am interested in the skills and interests that are useful in my profession.  
I am always experimenting, and it is useful to have a range of subjects to study. I am always writing, and I am always interested in the subjects that are useful in my profession. I am always interested in the subjects that are useful in my profession.
