

5th Grade Spelling

by Christina Nosak

Spelling must be taught by pattern for it to be effective. This spelling program consists of 35 weeks of lists/homework, daily activities, and suggestions for assessments in lieu of spelling tests. *Traditional tests do not teach spelling!*

Spelling Lists/Homework: The order of the lists can be determined by you to best meet the needs of your class. There is also a blank homework/list page at the end for you to use to make your own lists if needed.
