

Name : _____ Score : _____

Teacher : _____ Date : _____

Find the Missing Factor

1) $30 \times N = 930$ $N = \underline{\quad}$ 2) $33 \times N = 462$ $N = \underline{\quad}$

3) $19 \times N = 437$ $N = \underline{\quad}$ 4) $34 \times N = 544$ $N = \underline{\quad}$

5) $30 \times N = 990$ $N = \underline{\quad}$ 6) $27 \times N = 324$ $N = \underline{\quad}$

$$\begin{array}{r} \square + \square = \square \\ \square + \square = \square \\ \square - \square = \square \\ \square - \square = \square \end{array}$$

6)

$$\begin{array}{r} \square + \square = \square \\ \square + \square = \square \\ \square - \square = \square \\ \square - \square = \square \end{array}$$
