

Use with the Wings of Wonder or the Bat Cave

JUST THE FACTS!

Read each statement. Write **T** for TRUE or **F** for FALSE.

Statement	TRUE or FALSE?
1. Bats have feathers and lay eggs.	
2. Bats have good eyes to help them find food.	
3. Some bats eat fruit, some eat flower nectar, but most bats eat bugs.	
4. Bats find their food by using echolocation. It is called sonar.	
5. All bats live in groups.	
6. Bats sleep upside down and hold on with their feet.	
7. Mother bats can always find their babies. They know their baby's cry and smell.	
8. Having bats around can mean fewer bugs since a group of bats can eat thousands of insects.	
9. Even though bats are wild animals, it's okay to try to touch one.	
10. The Mexican long-eared bat is the biggest bat at 14 inches long.	
11. Some farmers use bat droppings as fertilizer.	
12. Bats eat nectar, but cannot pollinate flowers like bees.
