NETWORKING BINGO

Directions: Fill in each square with a person who matches each description. When you find a match shake hands and introduce yourself. Then ask that person at least one specific question regarding their experience.
** Example: Find someone who knows another language. How do you say "thank you" in that language?"

After your conversation write down the name of the person who you spoke within the space provided. You may not fill in a square with your name and you only use on square per person.

The goal is to have good conversations!

Find someone who has won a major award	Find someone who owns or grew up with a pet	Find someone who knows another language	Find someone who knows how to play an instrument that you know how to play	Find someone who has run a 5k/10k/half marathon/marathon
