

It's more division questions, easy if you know the 2x, 5x and 10x tables!

1. $8 \div 2 = \square$

2. $20 \div \square = 4$

3. $40 \div 10 = \square$

4. $\square \div 2 = 3$

5. $35 \div \square = 7$

6. $40 \div 10 = \square$

7. $6 \div 2 = \square$

8. $10 \div \square = 1$

9. $30 \div 10 = \square$

10. $\square \div 2 = 7$

11. $40 \div \square = 5$

12. $25 \div 5 = \square$
