

**Table 1: Chemical Properties of Elements**

Group

Period

Table 1 shows the chemical properties of elements. The elements are arranged in order of increasing atomic number. The elements are arranged in order of increasing atomic number. The elements are arranged in order of increasing atomic number.

1.

1. Hydrogen is a gas at room temperature.
2. Helium is a gas at room temperature.
3. Lithium is a metal at room temperature.
4. Beryllium is a metal at room temperature.
5. Boron is a metalloid at room temperature.
6. Carbon is a non-metal at room temperature.
7. Nitrogen is a gas at room temperature.
8. Oxygen is a gas at room temperature.
9. Fluorine is a gas at room temperature.
10. Neon is a gas at room temperature.
11. Sodium is a metal at room temperature.
12. Magnesium is a metal at room temperature.
13. Aluminum is a metal at room temperature.
14. Silicon is a metalloid at room temperature.
15. Phosphorus is a non-metal at room temperature.
16. Sulfur is a non-metal at room temperature.
17. Chlorine is a gas at room temperature.
18. Argon is a gas at room temperature.

What are the chemical properties of the elements in the periodic table?

Table 1 shows the chemical properties of the elements in the periodic table.

2.

1. Hydrogen is a gas at room temperature.
2. Helium is a gas at room temperature.
3. Lithium is a metal at room temperature.
4. Beryllium is a metal at room temperature.
5. Boron is a metalloid at room temperature.
6. Carbon is a non-metal at room temperature.
7. Nitrogen is a gas at room temperature.
8. Oxygen is a gas at room temperature.
9. Fluorine is a gas at room temperature.
10. Neon is a gas at room temperature.
11. Sodium is a metal at room temperature.
12. Magnesium is a metal at room temperature.
13. Aluminum is a metal at room temperature.
14. Silicon is a metalloid at room temperature.
15. Phosphorus is a non-metal at room temperature.
16. Sulfur is a non-metal at room temperature.
17. Chlorine is a gas at room temperature.
18. Argon is a gas at room temperature.

3.

Table 1 shows the chemical properties of the elements in the periodic table.
