

Cellular Respiration Worksheet

1. Where in the cell does each reaction take place?

- Glycolysis –
- Fermentation –
- Acetyl CoA formation –
- Krebs Cycle –
- ETC –

2. Name the Reactant and Products for each reaction

- Glycolysis

Reactants: _____

Products: _____

- Fermentation

Reactants: _____

Products: _____

- Acetyl CoA formation

Reactants: _____

Products: _____

- Krebs Cycle

Reactants: _____

Products: _____

- ETC

Reactants: _____

Products: _____
