

The ABCs of Art By M.C. Gillis

COLOR THEORY

Color is an element of art.

Everytime I use color, I am creating a color scheme.

← This is a color wheel.

The most common color schemes are listed below.

Primary.... [] [] [] {I can make all the other colors by mixing different amounts of primary colors}

Secondary.... [] [] [] {I can mix two primary colors to make a secondary color.}

Warm.... [] [] [] [] [] {Yellow and all the colors with red and orange tones are warm.}

Cool.... [] [] [] [] [] {Violet and all the colors with blue and green tones are cool.}

Complimentary.... [] [], [] [], [] [], [] [], [] [], etc {Opposites on the color wheel are complimentary.}

Analogous... [] [], [] [], [] [], [] [], and so on. {Colors that are close neighbors on the color wheel are analogous.}

Rainbow... [] [] [] [] [] [] [] {Using primary and secondary colors placed in order from the color wheel, I can make a rainbow}

Intermediate... is a color term I need to know. It is the color in between the primary and secondary colors on the color wheel.
