FINDING RADIUS

Find the radius of each circle using the given circumference. Round your answer to the nearest tenth.
(use $\pi = 3,14$)

1) Circumference = 36,3 cm
Radius?

2) Circumference = 100 yd
Radius?

3) Circumference = 125,6 ft
Radius?

4) Circumference = 135 yd
Radius?

5) Circumference = 64 in
Radius?

6) Circumference = 70 cm
Radius?

7) Circumference = 46,6 ft
Radius?

8) Circumference = 84,2 yd
Radius?
