

## Punctuation editors, the unsung heroes of the Internet.

THE INTERNET WOULD BE A  
*DREARY* PLACE WITHOUT THE  
LIKES OF ME!

I TAKE **BORING**  
STUFF LIKE THIS:

Google's self-driving wreck:  
really human error. The  
person was manually  
driving the car.

AND MAKE IT  
*EXCITING!!*

Google's Self-Driving  
Wreck: Really Human Error?

... So the "person" was  
"manually driving the car"?
