

COMPOSITION FOR DUMMIES (AND SMART PEOPLE WITH ARTIST'S BLOCK)

Sometimes when composing shots it can be difficult to figure out exactly what to cut to, and how to frame it.

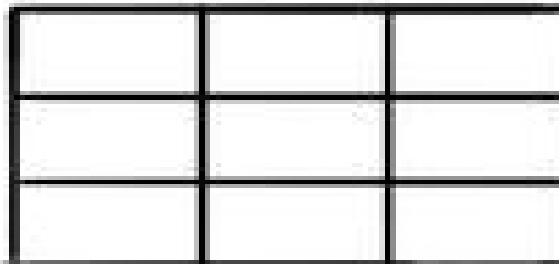

Let's talk about the **RULE OF THIRDS** cause it's gangsta, and it works.

Start with a blank storyboard panel.

Now divide the panel into thirds **VERTICALLY**, like an Italian flag. I already like where this is going.

Now divide it into thirds again, only this time **HORIZONTALLY**.
