

# The job interview

The job interview is very important. Before you go there you must think of a lot of things. You should know about the company, the people who work there, the kind of work you will do, and the kind of people you will be working with. You should also think of questions to ask the interviewer. The interviewer will be asking you questions, and you should be able to answer them.

Remember, the job interview is your chance to show the interviewer that you are the best person for the job.

Remember when the interviewer asks:

What does the job entail?

Can you tell me where the work is?

What are the hours?

Do you have a good idea of what the job is?

What are the main duties?

What are the main responsibilities?

Should you ask anything else about the job?

Remember if you have any questions, ask them now they are waiting!
