

Remedy Health Abbreviations – Medical Terminology

A		E	
AAA	abdominal	ECG	electrocardiograph
AAH	Acquired Health Worker	EKG	echocardiogram
ADD	Acquired Immune Deficiency Syndrome	ENT	ear, nose and throat
AD	Acute Myocardial Infarction	ESRD	end stage renal disease
AD	adrenal	F	
ADH	Acute Otitis Media	FB	foreign body
ADP	acute renal failure	FM	Foot/muscle
AD	Acute Pharyngitis	FTT	failure to thrive
ADH	acute withdrawal state	FU	follow up
B		G	
BAC	Bacterial Culture Counts	GCS	Glasgow Coma Score
BD	twice daily	G	grams
BT	breast feed	GA	general anesthesia
BGL	blood glucose level	GI	gastro intestinal
BM	body mass index	GYN	gynecology
B-D	body of	H	
BP	blood pressure	Hb	hemoglobin
C		HCO	hemodialysis
CAAP	continuous ambulatory peritoneal dialysis	HQ	head circumference
CCF	congestive cardiac failure	HIV	human immunodeficiency virus
CNS	central nervous system	HNPU	has not passed urine
C-D	completing of	HPV	has passed urine
CCAPD	chronic obstructive pulmonary disease	HQ	heart rate
CPR	cardio pulmonary resuscitation	HRA	hospital registration number
CCF	chronic renal failure	HST	hypertension
CCAPD	chronic suppurative otitis media	Hyp	hypotension
CVA	cardio vascular accident	Hx	history
CVC	central venous catheter	I	
CVA	cervix, cervix, cervix, cervix	I & D	incision and drainage
CVA	chest x ray	ICU	intensive care unit
D		ICU	intensive care unit
D-C	discharge	ICU	intensive care unit
DDA	dangerous drug of addiction	ICU	intensive care unit
DDA	differential diagnosis	ICU	intensive care unit
DD	diabetes mellitus	ICU	intensive care unit
DD	did not eat	ICU	intensive care unit
DD	date of birth	ICU	intensive care unit
D & D	diagnosis and monitoring	ICU	intensive care unit
DD	deep vein thrombosis	ICU	intensive care unit
DD	discussed with	ICU	intensive care unit
