

### **Microscopic and Macroscopic**

#### **Microscopic view:**

1. **Draw the paramecium-like and fill in gaps with the given words.**

Labels indicate the following: draw in the regions of each cell, indicate whether it is full of organelles, the color of the nucleus, and the color of the body. Draw and label the following: the nucleus, the body, the cell membrane, and the cell wall.

Draw a microorganism that is not a paramecium-like form and draw the body, the nucleus, and the cell wall. Label the following: the nucleus, the body, the cell membrane, and the cell wall.

**Labels: nucleus, body, cell membrane, cell wall, and flagella.**
