

NAME: \_\_\_\_\_

## Volcanic Hazards

**Across**

1. Potentially dangerous volcanic process
2. Movement or outpouring of lava
3. Emissions produced when magma rises and gases that are trapped within the magma at depth are released

**Down**

1. Fluidized masses of rock fragments and gases that move rapidly in response to gravity.
3. A situation that poses a level of threat
5. Describes a hot or cold mixture of water and rock fragments flowing down the slopes of a volcano and (or) river valleys.
