

## MAMMALS

Mammals are AMAZING! They are \_\_\_\_\_ blooded. That means their body temperature does not change with their environment.

Mammals have \_\_\_\_\_ or \_\_\_\_\_ on their bodies. This keeps them warm. Mammals do not hatch from eggs. They are born \_\_\_\_\_. Mothers feed their babies \_\_\_\_\_. When mammals breathe, they breathe in \_\_\_\_\_. Finally, mammals can \_\_\_\_\_. They do not stay in one place. My favorite mammal is a \_\_\_\_\_.
