## **VALUE SCALES WORKSHEET**

- Value refers to the relative lightness or darkness of areas in a design.
- Sometimes, artists make use of a value scale to help them determine the number of values in their artwork.
- . Hundreds of gradations are possible when showing value.

## THE VALUE SCALE

In the boxes provided below, create a Value Scale that ranges from LIGHT to DARK. Use lines and crosshatching to create the different values (i.e. Spaced out lines for lightest areas and tight-knit crosshatch lines for the darkest areas).							

Light

. You now have 8 values to choose from when creating fabric textures in your fashion designs.

(See the rest of the project on the following page).
