

Multiplying by 10 and 100

Remember – to multiply by 10 just move each digit one place to the left and the decimal to the right a single place.

To multiply by 100 move each digit two places to the left.

Complete these written equations:

$10 \times 20 = 100 = \boxed{}$

$10 \times 30 = 100 = \boxed{}$

$10 \times 70 = 100 = \boxed{}$

$10 \times 25 = 1000 = \boxed{}$

$10 \times 30 = 1000 = \boxed{}$

$10 \times 70 = 1000 = \boxed{}$

$10 \times 400 = 500 = \boxed{}$

$10 \times 100 = 100 = \boxed{}$

$10 \times 500 = 100 = \boxed{}$

$10 \times 500 = 500 = \boxed{}$

$10 \times 100 = 1000 = \boxed{}$

$10 \times 500 = 5000 = \boxed{}$

$10 \times 500 = 1000 = \boxed{}$

$10 \times 700 = 1000 = \boxed{}$

$10 \times 500 = 500 = \boxed{}$

$10 \times 400 = 500 = \boxed{}$

$10 \times 500 = 500 = \boxed{}$

$10 \times 500 = 500 = \boxed{}$
