

$$\begin{array}{r} \times \quad 6 \\ 9 \overline{) 54} \\ \underline{-54} \\ 0 \end{array}$$

Some students have a hard time remembering the steps and use other words to help them

remember, such as:

**D**ivide - **D**addy

**M**ultiply - **M**other

**S**ubtract - **S**ister

**B**ring down - **B**rother
