

CELL-FACTORY ANALOGY POSTER RUBRIC

Points Possible	0-4	5-8	9-12	Points Earned
Organelles present and recognizable.	0-4 organelles present.	5-8 organelles present.	9-12 organelles present.	
Factory items present and recognizable.	0-4 factory items present.	5-8 factory items present.	9-12 factory items present.	
Organelles and factory items correspond to correct colors.	0-4 organelles and factory items correctly color-coded.	5-8 organelles and factory items correctly color-coded.	9-12 organelles and factory items correctly color-coded.	
Does the analogy make sense?	0-4 sensible analogies	5-8 sensible analogies	9-12 sensible analogies	
Points Possible	0-2	3-4	5-6	
Poster Neatness	Most parts fit within cell/factory; poster is not well balanced; some parts are neatly glued/adhered to	All parts fit within cell/factory; poster is mostly balanced; most parts are neatly glued/adhered to	All parts fit within cell/factory; poster is balanced over all; parts are neatly glued/adhered to	

...between drawings and drawing and organelles (5) ... drawings and organelles

... organelles

... placed on special carts which can deliver the widget and exported, the carts take the widget to the ports where the widgets are packaged and ready for export. Sometimes widgets don't turn out

... are sent to the scrap yard where they are broken down for parts or destroyed. The widgets that are the widget

... a large wooden fence, only the postal workers (and citizens with proper passports) are allowed outside the

city (underlined) with the cell parts. Use the storyline above, match the parts of the

1. Mitochondria

2. Ribosomes

3. Nucleus

4. Endoplasmic Reticulum (ER)
