

<p>Since 4 quarters equal one dollar, a dollar is divided into 4 equal parts, each part will be equal to <math>\frac{1}{4}</math>.</p> <p><math>\frac{1}{4}</math> of a dollar = <math>\frac{25}{100}</math> = </p>	<p>Determining equivalent fractions using models or money</p> <p><math>\frac{3}{8}</math> of the figures are triangles. Notice the figures on the right. The six figures can be divided into 2 equal groups. By dividing the figures into two equal groups, the triangles can also be referred to as <math>\frac{1}{2}</math> of the group.</p> <p>Figures that refer to the same portion of a group of items or the same part of a whole are called <b>equivalent fractions</b>.</p>
<p>Fill in the missing numbers for each problem.</p> <p>1 penny is <math>\frac{1}{100}</math> of a dollar</p> <p>1 nickel is <math>\frac{5}{100} = \frac{1}{20}</math> of a dollar</p>	<p>are circles. <math>\frac{1}{2}</math> of the figures are circles.</p> <p>are circles. <math>\frac{3}{4}</math> of the figures are circles.</p> <p>of the figures are circles. <math>\frac{1}{8}</math></p>
<p>2 dimes = <math>\frac{20}{100} = \frac{2}{10}</math> of a dollar</p>	<p>Write the fraction that represents the shaded portion of each rectangle.</p> <p><math>\frac{1}{2}</math></p>
<p>3 quarters = _____ of a dollar</p>	<p>Each of the rectangles is the same size and even though they are divided differently, the portion that is shaded is equal to one-half for each one.</p> <p>This can be verified. What is <math>\frac{3}{5}</math> divided into 2 equal parts? <math>\frac{3}{5} \div 2 = \frac{3}{10}</math>. There should be 3 sixths in each of the parts.</p>
<p>1 dime = _____ of a dollar</p>	<p>To check, what is <math>\frac{4}{12}</math> divided into 3 equal parts? <math>\frac{4}{12} \div 3 = \frac{1}{9}</math>. There should be 4 twelfths in each of the parts.</p>
<p>1 nickel = _____ of a dollar</p>	<p>To check, what is <math>\frac{5}{8}</math> divided into 4 equal parts? <math>\frac{5}{8} \div 4 = \frac{5}{32}</math>. There should be 5 eighths in each of the parts.</p>
