**B Direct object pronouns** attach to the end of affirmative commands. Remember, affirmatives attach (AA).

The direct object pronouns answer 2 questions, “Who?” and “What?” ... They replace the noun !! Agree in number and gender ☺

The direct object pronouns are:

<b>Me = me</b>	<b>Nos = us</b>
<b>Te = you</b>	<b>Os = y'all</b>
<b>Lo= him, it (mas noun)</b>	<b>Los/las = them</b>
<b>la = her, it (fem noun)</b>	

When you add the direct object to the end, you have to add an accent mark. You separate the syllables of the word, and write the accent mark on the 3rd to the last syllable.

**Reflexive Verbs = TE** is only used with informal commands, telling one person what to do to him/herself !!
