

Rounding up

Use the **rounding up** method to multiply these amounts. Remember to **round one number to the nearest 10** and **adjust the answer**. For example:

49×6 is the same as:

50×6 minus 1×6

$300 - 6 = \underline{294}$

1. 55×5

2. 29×4

3. 38×3

4. 47×7

5. 69×5

6. 79×2

7. 88×5

8. 97×6
