

Nurse Frosty Saves the Day

Review by: Shelby Mayer Grade: four

I think the story is nice. It is perfect to read on rainy days and at night before bed. My favorite part of the book was when Nurse Frosty and Rodney were trying to catch the plant thieves. I didn't really have a least favorite part. My favorite character was Miz Bullsy. I liked the pictures because it doesn't make the book boring. Also, they were colorful. Nothing would have made this book better. I would not add anything to this book. This is a pleasurable book for kids and adults.
