

Name _____ Date _____

OVERVIEW OF DNA REPLICATION

Answer the questions below.

1. Definition of DNA replication: The process where DNA replicates its _____ and involves many _____.
2. What phase in the cell cycle where DNA replication occur? _____
3. What the correct model for DNA replication? _____
4. Where is the DNA replication begin? _____
5. What is the direction of DNA synthesis? _____
6. What happens to the DNA molecule during the second step of DNA replication?

7. What happens during the third step of DNA replication?
