

# I am Unique

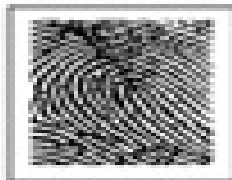

Name: \_\_\_\_\_

Did you know that fingerprints are made before we are born and no finger print is the same!

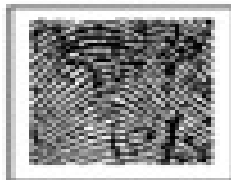

Fingerprints are classified by three different patterns:

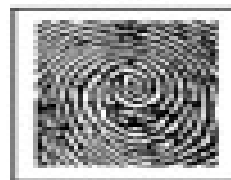

An arch

A loop

A whorl

Using an ink pad, place your index finger gently on the ink pad. Roll it gently side to side in the box below. Now get your friend to do the same in the second box.

ME

MY FRIEND

Are the fingerprints the same? Yes / No Circle your answer

What type of fingerprint do you have? \_\_\_\_\_

What type of fingerprint does your friend have? \_\_\_\_\_
