

Latitude and Longitude Worksheet

1. a. Label the countries that the equator passes through.

b. Label the countries that the prime meridian passes through.

2. The terms of the latitude are mixed up. Enter their opposite in the parentheses.

latitude	negative	range is	from the	north
longitude	positive	range is	from the	west to east

latitude	positive	range is	from the	north to south
longitude	negative	range is	from the	east to west

3. Which latitudes are written correctly? Circle them.

10° N	10° S	100° E	100° W
10° W	10° E	100° S	100° N

4. Add the countries that are in each quadrant of the southern and northern hemispheres and label the countries in the table.

Quadrant	Countries in quadrant	Country in quadrant
NW	USA, Canada	USA, Canada
NE	Asia	Asia, Australia
SW	South America	Argentina, Brazil
SE	Australia	Australia, New Zealand

5. Fill in the countries' name.

Coordinates	Name
1. Country: north east of Russia	
2. Country: north west of Russia	
3. Country: north east of Canada	
4. Country: north west of Canada
