#### Two-Party Politics

##### Part 1: Matrix

**Complete** the matrix by describing the beliefs and ideals of each of the parties.

**Generate** a list of at least 10 of President Jefferson's decisions and actions. Decide which party's ideals are most aligned with the decision or action and provide an explanation of why the decision or action aligns with that party.

Decisions and Actions	Democratic-Republican Party's Beliefs and Ideals	Federalist Party's Beliefs and Ideals
Cut back on the military	Smaller military meant less money needed to run the government and they believed this was the best choice.	Believed in maintaining a strong military presence so leaving a small militia to defend the push was not something they agreed with.
Less Formality	From dress code to the transportation of the President, they stood for the less wealthy.	Believed in keeping an air of elegance in the white house and wanted a more formal attitude.
Repealed many taxes and reduced the number of federal employees	Lined up with their beliefs and ideals for a small, weak government. Repealing taxes put the tax collectors out of work, and took some of the burden off of people.	Were in favor of taxation, knowing that some form of taxation is necessary to run the government efficiently.
