

The Carbon Cycle and the Greenhouse Effect

Carbon Sinks- Anything that _____ carbon from the atmosphere.

Carbon Sources- Anything that _____ carbon to the atmosphere.

Questions

Use the carbon cycle note and diagram to help you answer the following questions.

- a) Rank the 5 processes of the carbon cycle based on how much humans have affected them, from the least affected to the greatest affected. (1 heir

The image shows a large rectangular area divided into three horizontal sections. The top section is black, the middle section is green, and the bottom section is grey. The green section contains faint, illegible text, possibly a diagram or list of processes. The text is too small and faded to be read accurately.
