

Introduction and background: formation

1. Morphogenesis: epithelial sheet (1)

to **epithelial sheet** (epithelium)

by **cell** (e.g. stem cell, founder)

cell: **cell** (e.g. stem cell, founder)

cell: **cell** (e.g. stem cell, founder)

formation: **cell** (e.g. stem cell, founder) (e.g. stem cell, founder)

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet

2. Morphogenesis

cell (e.g. stem cell, founder) (e.g. stem cell, founder)

cell (e.g. stem cell, founder) (e.g. stem cell, founder)

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet

Epithelial sheet: cell sheet with the characteristic of the epithelial sheet. Sheet of epithelial sheet
