

Name: _____

Environmental Health

Our environment is all around us. It is what sustains us and it is our responsibility to maintain its health. If we do not, our health will be affected.

Directions: Research examples of each type of pollution. Write an example, or two, for each and how we can alter the effects for the health of our environment.

Air Pollution _____

Soil Pollution _____

Water Pollution _____

Noise Pollution _____

My pledge to keep my environment healthy:
