

Question words are used to ask about specific things: what, where, people, etc.  
They are different from yes / no questions (Do you know France?). They start  
with question words. Here are some examples: questions. Write the question words  
underneath the ones with the links and be prepared to go to find out a few examples of  
your own. You can also take the quiz on the next page using question words.

What

Use asking about people

Examples

Who is your best?

Who studies French?

Where
