

*"Rotation and Revolution"  
Song to the Tune of "Farmer in the Dill"*

*The students stand in a circle just close enough to grab hands during verse 2.*

*Sing verse 1 while spinning in place.*

*Verse 1:*

*Rotate on their axis.*

*Rotate on their axis.*

*All planets in our system rotate on their axis.*

*Sing verse 2 while walking in a circle holding hands. (one end kids don't have to hold hands)*

*Verse 2:*

*Revolve around the Sun.*

*Revolve around the Sun.*

*All planets in our system revolve around the sun.*

*Repeat both verses as time or attention allows.*

*Modifications: You can have one student stand in the middle and be the Sun. A gently sensitive strip that is even better! The sun needs to rotate through both verses. The sun could be blindfolded while he/she spins. When the song is over, the Sun reaches out (and stumbles from being dizzy) to choose the next sun.*
