| Honors Biology Cell Respiration Worksheet | |
|---|----|
| Digestion connection: 1. Why do you need to eat food (think about ATP production)? | |
| | |
| | |
| | |
| | |
| | |
| | |
| | |
| 2. What organic molecules store energy? | |
| | |
| | |
| | |
| | |
| | |
| | |
| | |
| 3. How does each cell in your body get organic monomers they can use for fue | 1? |
| | |
| | |
| | |
| | |
| | |
| | |
| | |

In the process of cell respiration there are some new organic molecules you will encounter:
