

Holding an ice cube in your hand	Washing clothes in a washing machine	Sitting on the leather interior of a car during summer	A blacktop parking lot getting warm on a summer day	More of this kind of heat transfer occurs with dark objects
Using a hot plate to keep food warm	Turning the heat on a cold day	A pond being warmed by the sun	Feeling heat from a laptop that has been turned on for several hours	With this heat transfer, the heat travels in all directions
The warmth of the bathroom after you take a long hot shower	The sun melting the ice cream on a cone	Steam from a hot cup of coffee	Operating a hot air balloon	When hot air or water rises
Standing near the grill while its on	Picking up a mug of hot cocoa	Sitting near a campfire	Wearing layers of clothing and a jacket while skiing	Ocean currents
