

# Adding up

Fill in the missing numbers, and add.

$3 + 3 = 6$

$4 + 4 = \square$

$7 + \square = \square$

$6 + \square = \square$

$3 + \square = \square$

$\square + \square = 15$

Count on to find out on which step the rabbit stops.

$4 + 3 = 7$

$2 + 7 = \square$

$8 + 2 = \square$

$5 + 5 = \square$
