

Read carefully the following text:

Hi, my name is Paul and I'm 18 years old. I live with my family in a villa in South Los Angeles and go to school nearby at Linton High. I enjoy spending time every morning and evening back home after school. I like the jogging, watching TV and collecting stamps. My father whom I love is very quiet. His usual hobbies are with cars and dogs and usually entering their gardens.

I was born on 17 October 1998. I have two sisters, one older, the other one younger, but they are not too much trouble. I get along with them just fine. Sometimes we argue about film and that, but I usually win the argument because I'm very clever.

My best friend is Stefan and he lives a few miles away. We like exchanging stamps and jogging together. We're also experts at downloading music and spend hours doing it.

I get up every day at 7.00 am and have a big breakfast. Mornings are spent at school talking to friends and going to classes. That's how I spend my day.

By beside of the sentences are four or false. Correct the false ones with a sentence from the text:
