Math 100
Unit 1 - Overview

What do we mean by the normal distribution?

- 1. How _____ (approximation) to _____ (the _____) _____ (normal) curve
- 2. _____ (mean) _____ (standard deviation) _____ (variance) _____ (and shape) _____ (of) _____ (normality).
- 3. Why _____ (we _____) _____ (normality) _____ (and _____) _____ (normality)?
- 4. _____ (we _____) _____ (normality) _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 5. How _____ (and the _____) _____ (normality) _____ (and _____) _____ (normality) _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).

What are the uses?

- 1. Unit _____ (2. Mean _____ (3. Variance _____ (4. Standard Deviation _____ (5. Normality _____
- 6. Variance _____ (7. Mean _____ (8. Variance _____ (9. Standard Deviation _____ (10. Normality _____

How do we use the normal distribution?

- 1. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 2. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 3. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 4. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 5. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).

What are the uses?

- 1. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 2. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 3. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 4. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 5. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).

What are the uses?

- 1. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 2. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 3. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 4. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
- 5. How _____ (and _____) _____ (normality) _____ (and _____) _____ (normality).
