

Biology Lessons, Assignments & Homework (2008-09)

Homework:

Your homework, each day, is to read over the section of the text the class is currently covering and review any notes taken in class. Write new vocabulary words with definitions several times to ensure you know them. Highlight any concepts you do not understand and bring it to my attention immediately the next day in class.

Class Materials:

The Biology text (Printice Hall) and science notebook (3-ring binder or 3-prong folder) are required for each class. Failure to bring either one will impair your ability to learn the material, complete assignments and will negatively impact your participation grade. Keep all notes and class handouts inside your science notebook in chronological order.

2nd Semester – 2009

May 25 - 29

Friday:

- **Movie: Influenza 1918**

Wednesday & Thursday:

- *Notebook Test makeup*

Tuesday:
